Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	2 Marks

Customer Problem Statement Template:

The IT procurement team needs a streamlined and automated process for handling standard laptop orders. Manual request processing can cause repeated work, inconsistent task handling, and delays. Therefore, the project aims to automate standard laptop orders using ServiceNow Flow Designer, creating a consistent and efficient procurement workflow.

Customer Problem Statement

Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

I am:
An IT procurement team handling standard laptop requests.

I'm trying to:
Process standard laptop orders quickly and efficiently through a standardized workflow.

But:
Manual request processing can cause repeated work, inconsistent task handling, and delays.

Because:
The existing laptop procurement process requires multiple manual steps to create and manage procurement tasks.

Which makes me feel:
The need for a simple, consistent, and automated laptop-ordering process using ServiceNow Flow Designer.

Problem Statement
"The IT procurement team needs a streamlined and automated process for handling standard laptop orders because manual procurement steps can cause repeated work, inconsistent processing, and delays."
