

Project Design Phase Solution Architecture

Date	28 September 2026
Team ID	6ab2210011b716a3e52c62c6
Project Name	Streamlining IT Procurement: Automatic Standard Laptop Orders With Flow Designer
Maximum Marks	4 Marks

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behaviour, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.
