| Project Name  | Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer |
| Maximum Marks | 10 Marks                                                                          |

**Model Performance Testing:**

Project team shall fill the following information in model performance testing template.

| S.No. | Parameter                             | Values                                                                                                                                                                                                                                                                                         | Screenshot                                                                           |
|-------|---------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
| 1.    | Model Summary                         | <p>ServiceNow automation setup for standard laptop procurement using Flow Designer and Service Catalog.</p> <p>Note: Once the request is approved, the flow automatically creates a Catalog Task with short description "Laptop needs to Configured" and assigns it to the Hardware group.</p> |    |
| 2.    | Accuracy                              | <p>Training Accuracy - 100%</p> <p>Validation Accuracy - 100%</p> <p>(Test order was approved and the Catalog Task was created correctly.)</p>                                                                                                                                                 |  |
| 3.    | Confidence Score (Only Yolo Projects) | <p>Class Detected - Not applicable</p> <p>Confidence Score - Not applicable</p> <p>This is not a YOLO project.</p>                                                                                                                                                                             | -                                                                                    |
