

Code-Layout, Readability and Reusability

Date	28 September 2026
Team ID	6ab2210011b716a3e52c62c6
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code	Yes	Flow Designer auto-formats each action block consistently
2	Proper File Structure	Files and folders are logically organized	Yes	Flow, actions, and catalog item configuration organized under respective ServiceNow modules
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	Fields such as "Requested Item" and "Assignment group" are clearly named
4	Function / Method Names	Functions are descriptively named	Yes	Action named "Create Catalog Task" clearly describes its purpose
5	Code Comments	Inline and block comments explain logic	Partial	Flow action labels are descriptive; a help/description note can be added for clarity
6	Modular Design	Code is split into reusable functions/modules	Yes	Flow uses a reusable Create Catalog Task action
7	No Redundant Code	Duplicate or unused code is removed	Yes	No duplicate actions found in the flow
8	Error Handling	Exceptions and errors are handled gracefully	Partial	Basic validation present; advanced error handling can be

				enhanced
--	--	--	--	----------

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
1	Create Catalog Task Action	ServiceNow Flow Designer (no-code)	Standard Laptop task flow	High
2	Standard Laptop task Flow	ServiceNow Flow Designer	Assigned to Standard Laptop catalog item	Medium
3	Approval Configuration	ServiceNow Service Catalog	Standard Laptop request approval process	Medium

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Flow actions are logically arranged and easy to follow
Readability	5	Clear action names and field labels make the flow easy to understand
Reusability	4	Core actions can be reused for other catalog items with minor changes
Documentation / Comments	3	Descriptions can be added to actions for better clarity
Overall Score	4.25	Well-structured, readable flow with room to improve documentation and error handling
